WHAT HAS THE SAFER ROUTES PROJECT ACHIEVED?

Raised junctions have been built to slow traffic down. This makes the roads safer for pedestrians.

The Puffin crossing on Tean Road makes it safer to cross a busy road.

School keep clear markings have been extended to reduce school gate parking.

Children have undertaken road safety training to help keep them safe on the roads.

Road humps have been installed to reduce traffic speed.

The schools have promoted events such as Walk to School week to encourage pupils to walk.
