How we can help

We help people with a disability to do things safely at home.

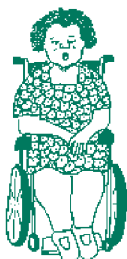

We work out what you need and make a plan. This might be about;

- doing things another way

- making changes to your home so it is safer and easier to get around

- any other help you might need.

We also have workers who can help if people have trouble hearing or seeing.

What happens when you contact us?

We come to your home to find out what help you need.

Or we could do this in hospital before you come out.

When might you get help?

We help lots of people and we try to see people quickly.

We see people first who need help most.

We always tell people if we can't see them quickly.

We have lots more information about how we can help. Please ask at one of our offices.

Tell us about the help we give you. If you are not happy we will try to sort it out.

You can talk to us by

- phone

- letter

- going to our office

- going to our website,
www.staffordshire.gov.uk

A Duty Officer is at every office to say how we can help.

Newcastle Disability Service Team
