

HOTEL ROOM SWIPE KEYS

Heyday magazine, which supports senior citizens, is warning of potential security issues surrounding hotel room swipe keys. Heyday magazine report's that the data held on these cards includes a person's name, partial address, check in and out dates and credit or debit card details including expiry date. They also state that the information is not erased from the card until it is reissued to another customer.

Before leaving the hotel ask the reception desk to clear your swipe card of any details to ensure that any information held is overwritten.

All our alerts are available in a range of formats and languages, including large print. Please contact Community Development if this would be helpful to you, or to someone you know.
