We have lots more information about how we can help. Please ask at one of our offices.

Tell us about the help we give you. If you are not happy we will try to sort it out.

ip?

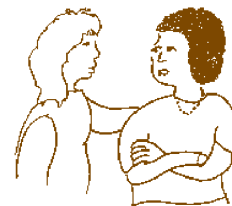

We can help if you leave hospital and are worried about going home.

We have a person in the hospital who can talk to you to find out what help you need.

Other people might be with them like a doctor, nurse, occupational therapist or a physiotherapist.

They can also ask your family or carer to tell them what help is needed too.

You can have an advocate if you want.

What to do next

Ask a nurse to call us.

Ask a relative or friend to call us.

What happens when you have told us what you need?

We write a plan to say what help we can give you.

You will need to write your name to say it is OK.

And you will get a copy.

After six weeks we will find out if our help is working

What happens when you go home?

A social worker will visit you to find out if our help works for you.
