

Family Activities Charging Schedule:

Increase in Charges: The Family Activity Service here at the Children's Centre continues to develop from year to year. In September 2010 we implemented a charging schedule for our activities, fixing our prices till April 2011. We are continually reviewing our services and it's highlighted yet again that our supplier's charges have risen, along with us too receiving a reduction in our funding. We have consulted with the management advisory board and finance committee to recommend an increase in our charges as we wish to continue to maintain and develop a quality service for the community on all our activities. These were agreed and please find below our new charging schedule for activities.
