

Transport and Streets

Local Transport Plan Schemes - Construction Programme

Statement: These are highway schemes in Staffordshire Highways' current construction programme. Schemes "on site" are those currently being constructed. "Completed" schemes are those which have been completed within the last 12 months. Schemes "to be constructed" are those which Staffordshire Highways are planning to construct in the next 12 months.

Display Scale Limitations: Available at all mapping scales.

Contact for further information: The Highways hotline: highways@staffordshire.gov.uk or 0300 111 8000.

Road and Street Works Information – Works planned or in progress on the public highway

Statement: This displays the notices received for works taking place or proposed to take place on the adopted highway. Works include highway improvements, resurfacing, etc and utility works including water/gas mains replacements, repairs, etc. Notices are required from these organisations as prescribed by the New Roads and Street Works Act 1991 and secondary legislation. The transfer of these notices between organisations occurs electronically and is therefore reliant on operable systems.

Display Scale Limitations: Available at all mapping scales.

Contact for further information: The Highways hotline: highways@staffordshire.gov.uk or 0300 111 8000.

Highway Surface Dressing

Statement: Surface dressing is the application of binder and stones to the surface of the road to seal it and prolong its life. This layer displays the locations where highway surface dressing is taking place for the current season (April to August). Prior to work taking place it provides an indicative month based on the programme, and then an actual date that the work was completed. Information for the forthcoming season will be updated in March each year.

Display Scale Limitations: Available at all mapping scales.

Contact for further information: The Highways hotline: highways@staffordshire.gov.uk or 0300 111 8000.

Neighbourhood Highway Teams – Proposed Programme of Parish Visits

Statement: This layer displays information regarding the programming of Neighbourhood Highway Team visits for each Parish (or Electoral Division if non-Parished) and how long the Team will be available on each visit. The Teams undertake a variety of highway maintenance works which are identified at a local level through the County Councillors and Parish Councils.

Display Scale Limitations: Available at all mapping scales.

Contact for further information: The Highways hotline: highways@staffordshire.gov.uk or 0300 111 8000.

Adopted Road Status

Statement: This displays the roads in Staffordshire (excluding Stoke-on-Trent) by class. If data appears to be missing for a particular location then nothing should be assumed.

Adoption codes are as follows:

- Publicly Maintainable roads.
- Prospectively Maintainable (unadopted) roads.
- Roads which are neither publicly or prospectively maintainable.
- Roads which are a mixture of the above.

Display Scale Limitations: Not shown when 'zoomed in' beyond 1:1500.
