My Life My Future

Transition means change

As you change from being a teenager to an adult, many things in your life will change.

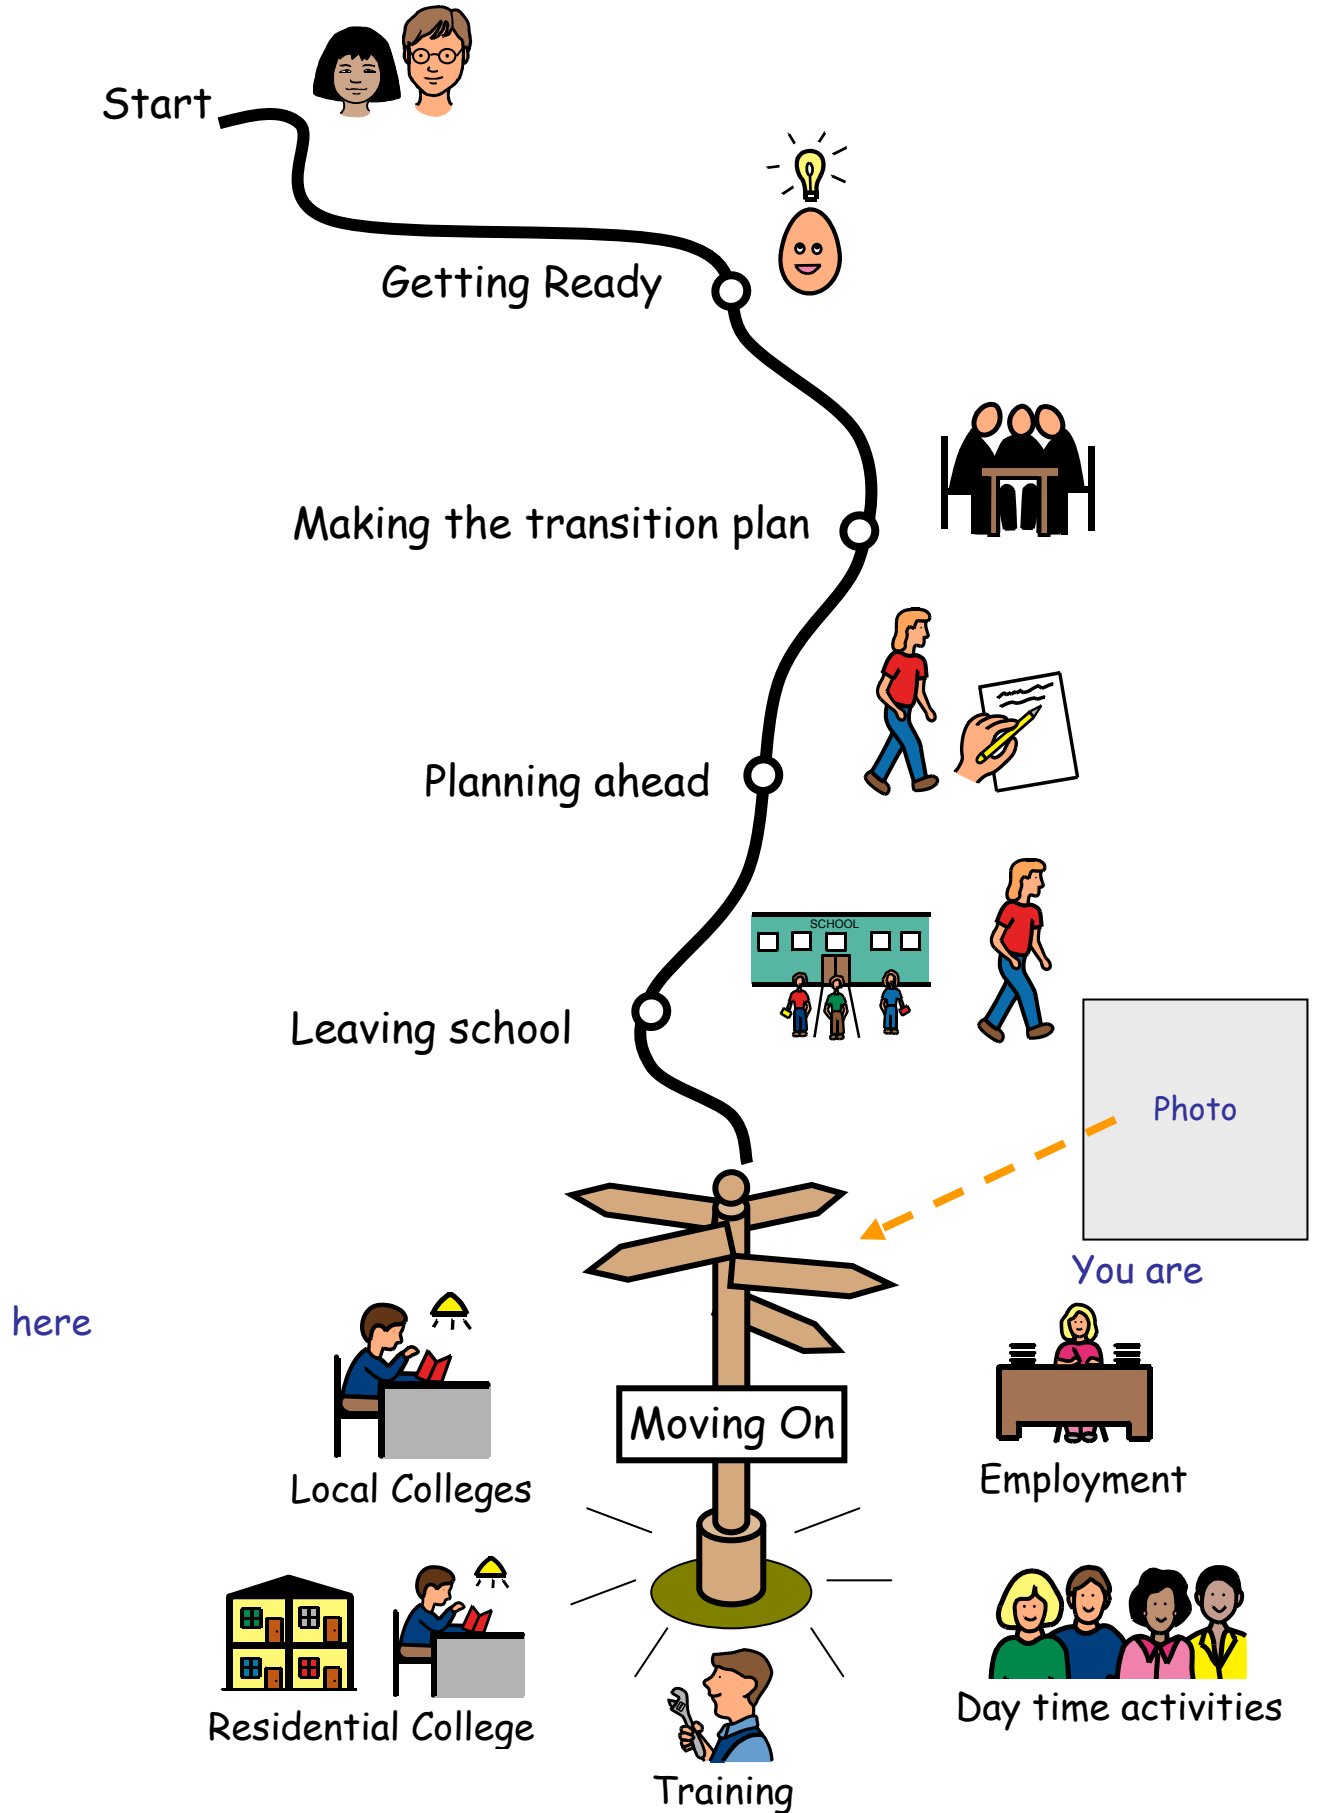

You will get new rights and choices to make.

Transition starts when you are age 13 and ends at age 25.

The next few pages show you

- what happens in Transition and where you are at the moment.
- The people who can help you

Planning for when I leave school

Using 'The Big Picture' to help me and talking to the people who know me well, we

- explored the things I would like to do now and when I leave school
- looked at all parts of my life

I may need help to find out more. There may be things I am not ready to think about and some things I may change my mind about, but that's OK, it is important to get it right.

It's my life my future
