INTRODUCTION

The purpose of the Early Years District Profile is to bring together a wide range of indicators for each district. It provides the commissioners with a robust evidence base across a range of health and wellbeing issues to help identify priority areas to target and place services in appropriate areas.

The report pulls together information from various sources to present a picture of the health and wellbeing of children aged 0-4, following through the Best Start Pathway.

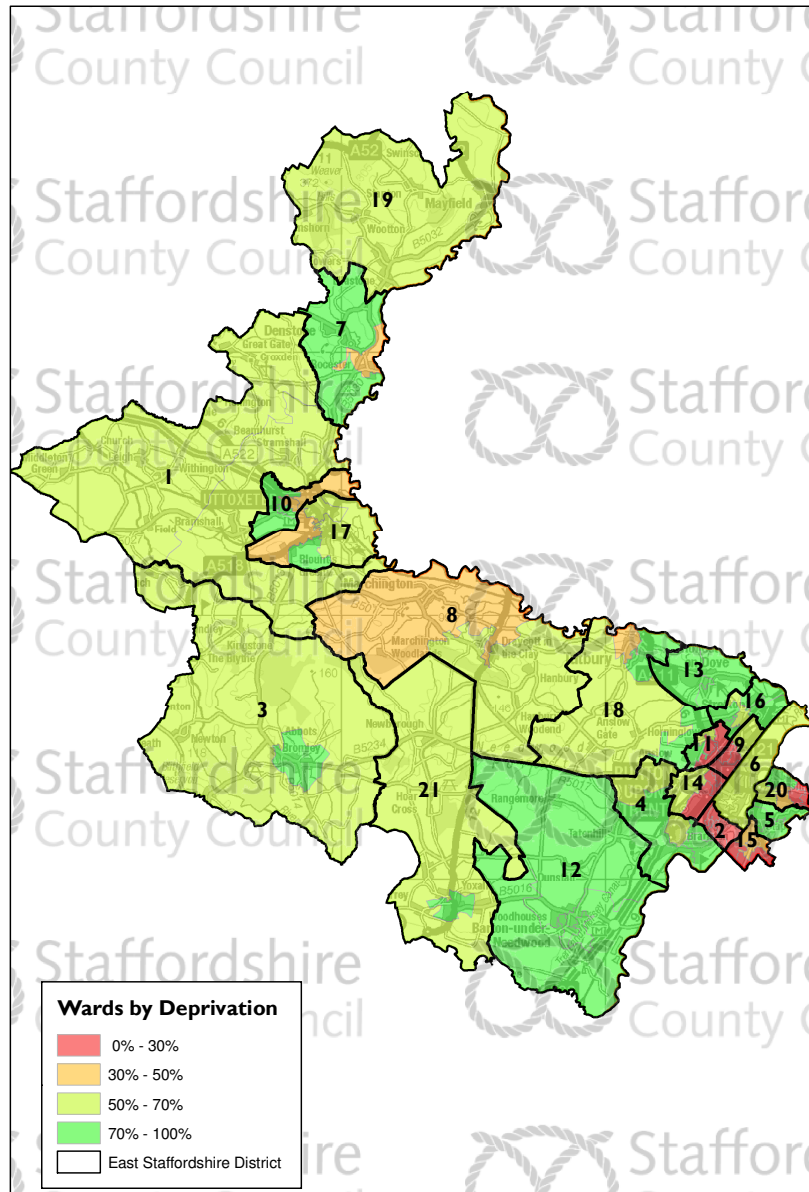

The data is presented and displayed at Ward Level with comparisons made with Staffordshire and England. Information used in the report is the latest available at the time of writing.

Health and social needs are complex and it is unlikely that there will be a single factor which is responsible for the particular situation in each local area. Therefore, it is important that no single item of information is treated in isolation. Instead the various pieces of data and evidence should be used together to give a better picture of the needs of children and young people in the local community.

We aim to produce this annually with the next one being due November 2016 to support the Districts with their Local Authority annual conversations.

East Staffordshire	114,922	7,298	6.4%	13.8%	15.1%	132.8	19.4%
Staffordshire	857,007	46,099	5.4%	6.4%	14.4%	114.3	7.8%
England	56,948,229	3,592,907	6.3%	20.2%	19.2%	159.3	24.4%

- Overall East Staffordshire has a higher than county average proportion of under 5's but a similar proportion to that of the national picture. At ward level there is some variance, with Anglesey, Eton Park and Shobnall having the highest proportions of under 5's.
- There is a lower proportion of children in East Staffordshire in the most deprived national quintile for the Child Wellbeing Index, in comparison to nationally, but this proportion is more than twice that of the Staffordshire percentage.
- There are five wards; Anglesey, Eton Park, Shobnall, Stapenhill and Winshill with a large proportion of children in the most deprived quintile., whereas 16 out of the 21 wards have no children in the lowest quintile nationally.

Staffordshire	3.9	5.6	68.5	1,132	543
England	4.2	6	68.5	-	-

- There is a lower rate of Looked After Children in East Staffordshire compared to both Staffordshire and England. The rate of children subject of a CP plan is lower in comparison to the England figure with a number of wards having suppressed figures due to the low numbers.
- However, the rate of Children in Need is appreciably above the county and national averages with Anglesey, Burton, Eton Park and Shobnall all having a significantly larger proportion of Children in Need.
- 13.6% of Staffordshire's BRFC families reside in East Staffordshire of which 51% of the children are under the age of 5.
- Winshill has the largest number of families eligible for BRFC, however Shobnall has the largest number of children under the age of 5 who are eligible.

Note: BRFC data is broken down using home postcode rather than case holding team

Remainder of the population is made up of households with no children

- Horninglow has the largest number of households with children with Weaver ward having the least.
- Horninglow also has the largest percentage of lone parent households with children, along with Anglesey and Eton Park. Yoxall and Abbey are the two wards with the lowest percentage of lone parent households with children.
- Overall, East Staffordshire has a lower percentage of lone parent households with children in comparison to national but marginally higher than the Staffordshire average.

Early Years Reach, 2014-15

	2013 Population (All)	2013 Population (Age 0-4)	Reach Population	% Reach Population (Age 0-4)

East Staffordshire	6,477	188	29.0
Staffordshire	45,653	1,346	29.5
England	2,830,359	78,153	27.6

- The teenage pregnancy rate in East Staffordshire is similar to that of England and Staffordshire. The rates are significantly higher than both Staffordshire and national in Stapenhill, Anglesey, Burton and Winshill.
- Figures in 7 of the 21 wards are suppressed due to low numbers of teenage pregnancies.
- It should be noted that 54% of all the under 18 conceptions in East Staffordshire have resulted in abortions.

England	14%

- Horninglow has the highest percentage of mothers smoking at time of delivery compared to Staffordshire and England averages. Shobnall, Branston and Town have the lowest percentages of those wards where data is available.
- Although Horninglow has the highest percentage of mothers who smoke at time of delivery, it has a similar rate to Staffordshire and England for babies born with a low birthweight.
- Needwood has the lowest percentage of mothers giving birth to babies with a low birthweight, which is significantly below Staffordshire and England.
- The figures for Crown are suppressed due to the low numbers.

East Staffordshire	1,377	1,427	104%	465

- There were a total of 1,377 three year olds eligible for 15 hours of free childcare within the Summer term.
- In the 2014-2015 Summer term, 1,427 three year old children were attending a place in a PVI setting and a further 465 were attending within a school nursery class.

*There is no measure for 3 and 4 yr olds in terms of take up because of variation in population data, access to different types of provision and local authorities funding places for children which live outside of their catchment area.

- All wards within East Staffordshire have a rate of A&E attendances lower than the national rate. In the wards of Shobnall, Eton Park, Horninglow and Burton, the rate of children under 5 years of age who attended A & E is above the rate across Staffordshire.
- Abbey ward has the lowest proportion of A & E attendances and also very low hospital admissions from unintentional injuries as identified by the suppressed figures; there are 11 other wards with suppressed figures due to low numbers.
- Stretton ward has a significantly larger rate of admissions when compared nationally, as does Heath and Horninglow.

Hospital Admissions from unintentional injuries aged 0-4 (rate per 10,000)
