

****This letter can be given out to parents when their child reaches two years of age****

****Add Setting Address****

Dear Parent/Carer

Integrated Progress Check at Age Two

Childcare settings are required to communicate with parents/carers about their child's learning and development. Between 2 and 3 years of age we will complete a summary of your child's development. You will be encouraged to discuss information about how and what your child likes to do at home.

The 0-19 practitioner will also complete a health and development review at 2-2½ years. It is useful for the reviews to be shared with the 0-19 practitioner and ourselves. This is to support the new integrated approach through developing communication links between health, early years, and parent/carers to provide a complete, holistic picture of the child's development.

It is important that when you receive a letter inviting your child to attend their health and development review that you inform us. This will enable your child's key person to complete the progress check at age 2 to share during the health and development review.

If you require further information, please ask your child's key person, the manager or childminder.

Kind regards
