Dear Mr. Brown

RECEIPT OF PETITION – STATE OF TAMWORTH'S ROADS

I refer to the petition, with 89 signatures, regarding the state of Tamworth's roads. I can advise you that receipt of the petition will be reported to Cllr Mark Deaville, Cabinet Member for Highways & Transport.

The Council has noted the concerns raised by residents with regard to the state of the roads around Tamworth and would like to reassure residents that it will continue to prioritise repairs that are of the greatest risk to public safety.

The Council has a comprehensive system of highway inspection and highway defects are prioritised for treatment by the level of risk posed to the public. In addition to the inspections carried out, residents can also report defects via the Council's website, by using the MyStaffs app or calling 0300 111 8000.

The Council also undertakes road maintenance schemes as and when the funding is available. In addition to the data held on the structural integrity of roads around the county, views of the local community are also taken into account when prioritising roads for more significant repair schemes.

Should you require further information regarding your petition please contact Tim Heminsley, Community Infrastructure Liaison Manager (Lichfield and Tamworth) on 01543 510166.

Yours sincerely

Amanda Felton
Executive Support Officer
