Dear Mrs Turner

### **RECEIPT OF PETITION – OBJECTIONS TO I54 WESTERN EXTENSION**

I refer to the petition, signed by local residents objecting to the proposed extension to the i54 site. I can advise you that receipt of the petition will be reported to Cllr Mark Winnington, Cabinet Member for Economic Growth.

As you are aware the County Council and the City of Wolverhampton Council have recently undertaken a public consultation exercise prior to the intended submission of a planning application later this year. The Councils will consider the points raised in the petition together with all the responses to the public consultation and how any amendment to the proposals may address concerns that have been raised.

It is likely that a planning application will be submitted in late May / early June for consideration by South Staffordshire Council. An accompanying Environmental Impact Assessment will detail the Councils' proposals for mitigation.

There will of course be the opportunity to make further comment on the proposals at that time to South Staffordshire Council.

Should you require further information regarding your petition please contact John Flynn, on 01785 277707.

Yours sincerely

**Amanda Felton**  
**Executive Support Officer**
