Dear Mr Dawson,

Re: Business case for Stafford Western Access Road route.

I am writing in support of the application for funding for the major scheme business case to construct the Stafford Western Access road.

Traffic congestion in Stafford has reached a critical level and this major investment will not only alleviate congestion levels but will also help attract significant investment from both existing and new employers.

The road will unlock land for much needed housing development within Stafford Borough. This major investment will help Stafford grow in both a reasonable and sustainable manner.

Yours sincerely,
