MESH FENCES - Wooden Posts

TYPICAL DETAILS OF EYE BOLT STRAINERS

(i) to end straining post (ii) to intermediate straining post

NOTES

1. All dimensions are in millimetres.
2. Straining Posts to be provided at intervals not exceeding 100 metres in straight lengths, changes in direction and vertical alignment, at ends.
3. Struts to be nailed to stake and straining post with 1 No. 100 x 4 dia. galvanised round steel nail.
4. Horizontal wires to comply with BS 4102:1998, to be tensioned using eye bolt strainers and fittings, in accordance with BS 1722-2:2006.
5. Horizontal wires attached to intermediate posts with 40 x 4 staples, not driven home (to allow wire movement).
6. Steel wire mesh fixed to straining posts and intermediate posts with 40 x 4 staples. Mesh fixed to horizontal wires with either netting rings or galvanised wire ties at 500 centres.
7. Bottom 250 width of mesh to be buried, 100 vertical and 150 turned out on side of fence that is to contain animals.
8. Preservation of timber in accordance with BS 8417:2011 +A1:2014

## NOTES

1. All dimensions are in millimetres.
2. Type 1 - BS 1722-2:2006 Type SW120 with mild steel barbed wire complying with BS 4102:1998 fixed to the top line wire and the third line wire from the ground and as shown on this detail.
3. Type 2 - BS 1722-2:2006 and as shown on this detail.
4. All line wire, stirrup wire and barbed wire shall be zinc coated to comply with BS EN 10244-2:2009.
5. When these fences are used in conjunction with quickset Hawthorn Hedge, the centre line of the fence shall be offset by 500mm from the centre line of the hedge.
6. Where the hedge is to be protected from cattle, a stock proof fence shall be erected on either side of the hedge.
7. Type 1 - Barbed Wire is not to be used adjacent to public footpaths.

# NOTES

1. All dimensions are in millimetres unless otherwise stated.
2. Gates shall comply with the appropriate Clauses in the 300 Series, any further requirements in Appendix 1/15 or 3/1 and with BS 5709:2018.
3. Drop bolts and catches shall be galvanised to comply with BS EN ISO 1461:2009.
4. All through tenons shall be pegged with 13 dia. oak dowels.
5. For details of fittings for hanging and fastening see Drawing Nos. H30 and H32 of the Highway Construction Details.
6. The gate shall be hung as shown for self closing with self latching stop post as shown on Drawing No. H33 of the Highway Construction Details.
7. The gate shall open away from highway.
