

Lichfield Road
Kings Bromley
Staffordshire

Ref: CX053– A515 Lichfield Road, Kings Bromley

30 September 2025

Dear Resident,

CX053 - Notification of carriageway reconstruction works on the A513 Lichfield Road, Kings Bromley

As part of the Council's ongoing investment into its roads in Staffordshire, Amey Services Ltd working with Staffordshire County Council, will shortly begin carrying out works along the A515 Lichfield Road, (from Cherry Lodge to the junction of the A513 Alrewas Road) and a section of carriageway surfacing at the junction of Crawley Lane. Works will include the removal of the existing carriageway surface and replacing it with a new surface (and associated preparatory works known as 'civil works'), alongside kerbing replacement, tactile crossing replacement, and renewal of ironwork.

Beginning on **Monday 20 October 2025**, we'll begin the first phase of the scheme, where we'll start the civil works.

These initial works will be carried out under temporary traffic signals during the daytime between the hours of **7.30am** and **7.00pm**. Temporary traffic signals may need to remain in place over night to guard open excavations and to allow for material curing times.

The civil works are due to be completed on **Friday 24 October 2025**.

From **Monday 27 October to Thursday 30 October 2025** between the hours of **7am to 7pm daytime road closures** will be in place, where we will begin our carriageway reconstruction works. This will include, utility survey works, the removal of the existing carriageway surface and replacing it with a new surface, along with the replacement of new road markings. Due to the size and scale of construction machines being used and to ensure the safety of the general public and workforce, it will be necessary to close the A515 Lichfield Road after the junction of Bradbury Lane to the junction of the A513 Alrewas Road.

Designated personnel will be positioned at either end of the road closure points to offer advice and assist with access to residential properties and business access within the closure points. Please speak to the site team, so that we can help with any specific needs or requirements you may have during this works.

A signed diversion route will be in place during the road closures.

Please plan ahead and allow extra time for your journeys.

Continued overleaf....

Emergency services will be given access through the road closures when safe to do so.

Pedestrian access along the length of the works will be maintained throughout.

We recognise that there is never a good time to undertake road works, however we have planned to undertake the road closures during the school holidays. This will help to minimise disruption to the local area, in particular when traffic volumes are reduced, enabling the works to be completed as soon as possible. Please allow extra time for your journeys and, where possible, please use alternative routes to avoid delays. Please do not ignore road closure signage.

Unfortunately, with any major highway works, some disturbance is unavoidable, and there may be short delays even on the approaches to the closure points. We must ask that you drive carefully and slowly through any sections of live roadworks for both the workforces and your own safety.

During the road closure period, waste and recycling collections will remain the same, on their normal collection days.

Please note that all dates are subject to change due to operational requirements and weather conditions. Weekend working may be used where necessary.

The works may at times be noisy, and we apologise in advance for any inconvenience or disturbance caused. We'll do our best to complete the work as quickly and safely as possible. We like to thank you for your patience during this works.

This information can be made available in a range of formats and languages, including Braille and large print. **CX053 - Notification of carriageway reconstruction works on the A513 Lichfield Road, Kings Bromley**
