

# **Pharmaceutical Needs Assessment for Staffordshire: Supplementary Statement**

February 2018 to April 2020

## 1 Summary

This Supplementary Statements updates the PNA for Staffordshire that was approved and published by the HWB Board in February 2018 with any changes that have taken place between February 2018 and April 2020.

There has not been significant change in pharmaceutical service provision in Staffordshire since the publication of the last needs assessment in February 2018 and April 2020. The changes between February 2018 and April 2020 are summarised in three categories:

- **Opening or closing of pharmaceutical premises**  
There have been 3 closures during this period and no new provision.
- **Non-significant changes in location of service provision**  
There were 7 relocations of service provision which are likely to have little impact on provision.
- **Changes in ownership or trading name**  
There were 14 pharmacies that changed ownership between February 2018 and April 2020 whilst a few pharmacies changed trading name during this time. Service provision and opening times have not changed substantially, and this is therefore unlikely to have any impact on service provision.

Staffordshire currently has 180 community pharmacies and there are also 23 GP practices in rural areas that can dispense to patients registered with their practice (Appendix 1).

## 2 Background

A pharmaceutical needs assessment (PNA) is a statement of the needs of pharmaceutical services for a specified population. The PNA looks at the current provision of pharmaceutical services across a defined area, makes an assessment of whether this meets current and future population needs for Staffordshire residents and identifies any potential gaps in current services or improvements that could be made in future pharmaceutical service provision.

The Health and Social Care Act 2012 transferred responsibility for developing and updating of PNAs to health and wellbeing boards (HWB Board). The latest PNA for Staffordshire which was approved and published by the HWB Board in February 2018 can be found at:

<http://www.staffordshireobservatory.org.uk/publications/healthandwellbeing/yourhealthinstaffordshire.aspx>

The HWB Board also has a statutory responsibility to publish and keep up-to-date the PNA for the population in its area through supplementary statements. The Regulations stipulate that supplementary statements are a way of updating what the PNA says about **availability of pharmaceutical services** and once issued becomes part of the PNA. Supplementary statements cannot provide updates on pharmaceutical need which is done every three years through a review of the PNA.

### 3 Changes since publication of the 2018 pharmaceutical needs assessment

#### 3.1 Opening or closing of pharmaceutical premises

There have been 3 closures in pharmaceutical service provision since the publication of the last PNA (one of which was already known and noted about in the 2018 PNA). There has been no new provision since publication of the last PNA.

Owner	Address
<b>New provision</b>	
None	
<b>Closures</b>	
Lloyds Pharmacy (ceased trading June 2018)	Lloyds Pharmacy, Chell Road, Stafford, ST16 2TF
