

Recycled Bottle Plant Pot

Activity

Use your old bottles to create a herb or tomato garden!

You will need

Plastic bottles Seeds (tomatoes are easy) Watering can
Soil Scissors Adult Sharpies/collage materials

1

With a grown up, take the lid off your bottle and cut off the top third.

2

Use a knife or scissors to add 3 holes on the bottom for drainage.

3

Decorate your pot using sharpies or collage materials.

4

Fill half of the bottle with soil.

5

Dig with your finger to plant the seed.

6

Push in your seeds and cover with soil.

Just wait and see your plants grow! How exciting!

Looking lit!

Water daily & wait for your tomatoes!
