Life in the Ocean

Let's learn about our AMAZING ocean environment!

Key Learning

- Name a variety of marine animals that live in the ocean.
- Know why the ocean is so important and how we can look after it.
- Learn about the key sustainability theme of plastic pollution and how it impacts the ocean
- Learn about Global Goal: 12 - Responsible Consumption and Production

Global Goals

Polly's Letter!

Hi Earth Cubs!

I'm Polly Pufferfish.

I'm so excited to show you around the
AMAZING ocean.

My friends are full of COLOUR and we are so
proud of our ocean home.

I get really really MAD when I see plastic.

Plastic pollution is BAD for the ocean.

It actually hurts my friends.

We need to work together to help the ocean.

Rethink using plastic or use better plastic
that's recycled.

We have one ocean, one planet that we ALL
need to protect!.

Polly Pufferfish

Meet my ocean friends!

Jazzy Jellyfish

Jellyfish are over 600 million years old.

Giant Clam

In the past, giant clams were nicknamed 'man-eating' clams, due to the belief that they ate divers whole!

Barracuda

Barracudas are powerful killers in the ocean, they attack their prey at high speeds.

Tiger Shark

Tiger sharks eat ANYTHING from venomous sea snakes to man-made objects.

Cuttlefish

Cuttlefish have not one, not two, but three hearts!

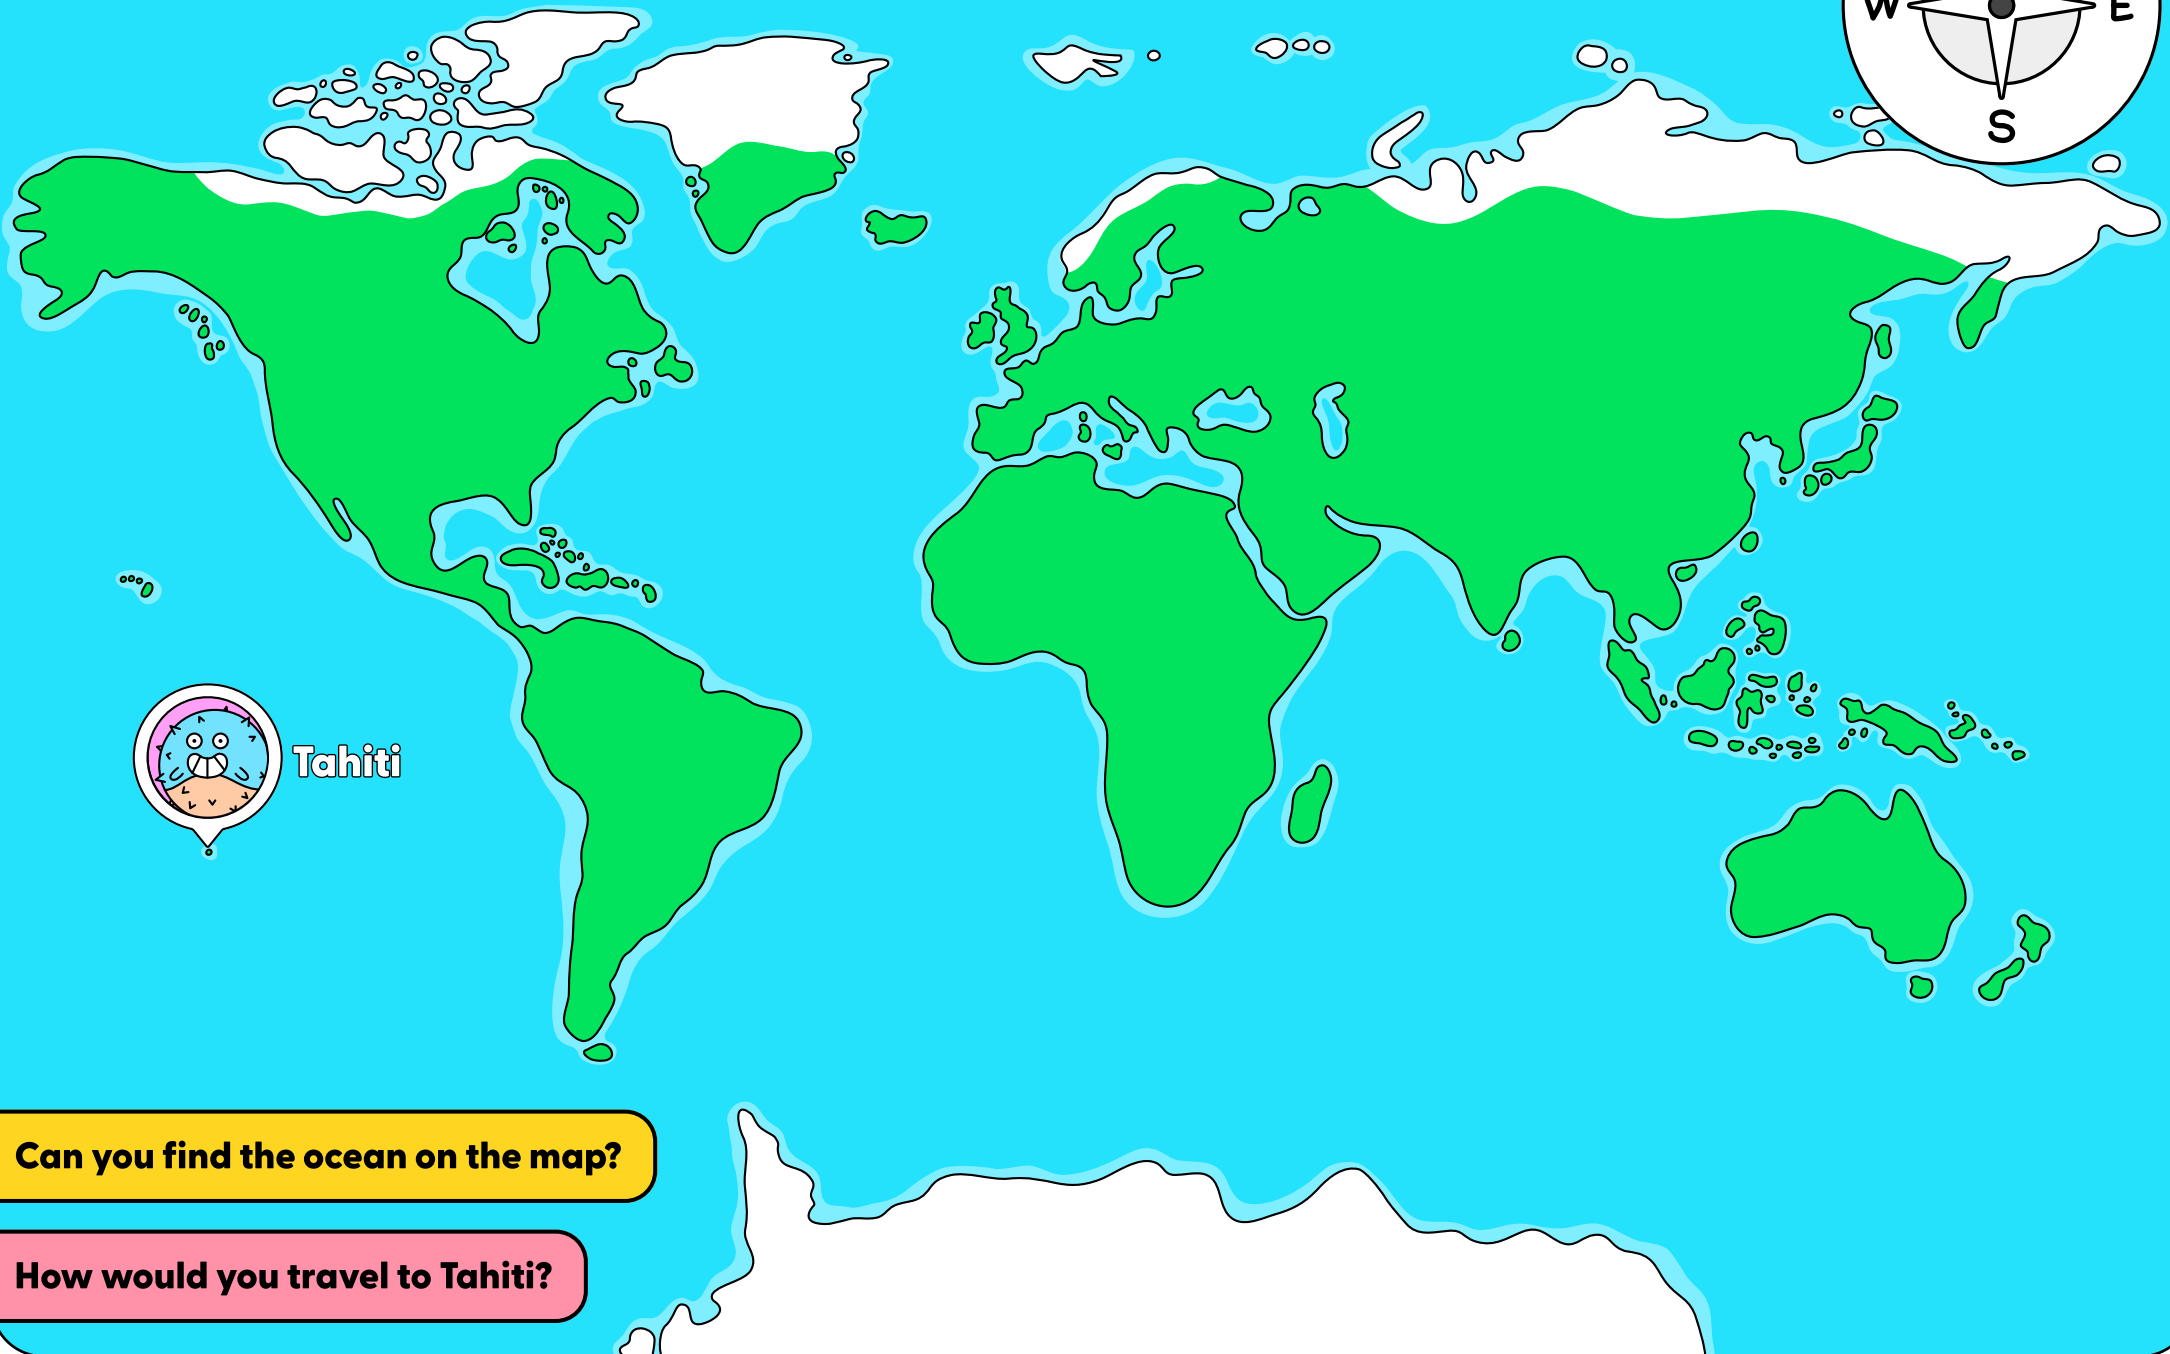

Ribbon Eel

Ribbon eels are carnivores that prey on small fish and other marine creatures.

Map of the World

Tahiti

Can you find the ocean on the map?

How would you travel to Tahiti?

Sing-a-long

Down beneath the ocean
From a drop of rain,
We are all one world
One ocean - it's the same!

We must stop using plastic
And putting litter in the seas,
This helps every one of us
And the creatures will be pleased!

Why not add percussion instruments
and make up a verse with the class?

Life in the ocean!

See the AWESOME marine animals that splash, shine and swim.

Learn about what makes them utterly fish-tastic with cool facts and photos!

Welcome to the ocean

Clicking clams

Colourful coral

Swift sharks

How many fish can you see in
the Earth Cubs App?
See how quickly you can find them!

Slippery eels

**Glimmering
ocean**

Dancing dolphins

Commotion in the ocean

So much hustle and bustle in the ocean. Let's take a look.

Can you find the fish school in the Earth Cubs app?

Can you find where you can recycle in the Earth Cubs app?

Where can you go to dance?

Who is hiding in the coral?

Our beautiful blue planet!

70 % of our planet is covered by the ocean.

We have SO much ocean we haven't even explored all of it yet.

There are mountain ranges under the ocean!

One million species of marine life live in the ocean!

There are more artefacts and pieces of history under the ocean- than all the world's museums put together!

One ocean!

We have ONE global ocean.
All oceans are connected!

- Water is vital for all living things.
- Humans and animals need it to live.
- Plants take water up through their roots.
- EVERY drop of water you need comes from the ocean!
- Think about every time you use water.

Things we use water for

Brushing teeth

Shower

Bath

Watering plants

Washing the dishes

Cleaning the dog

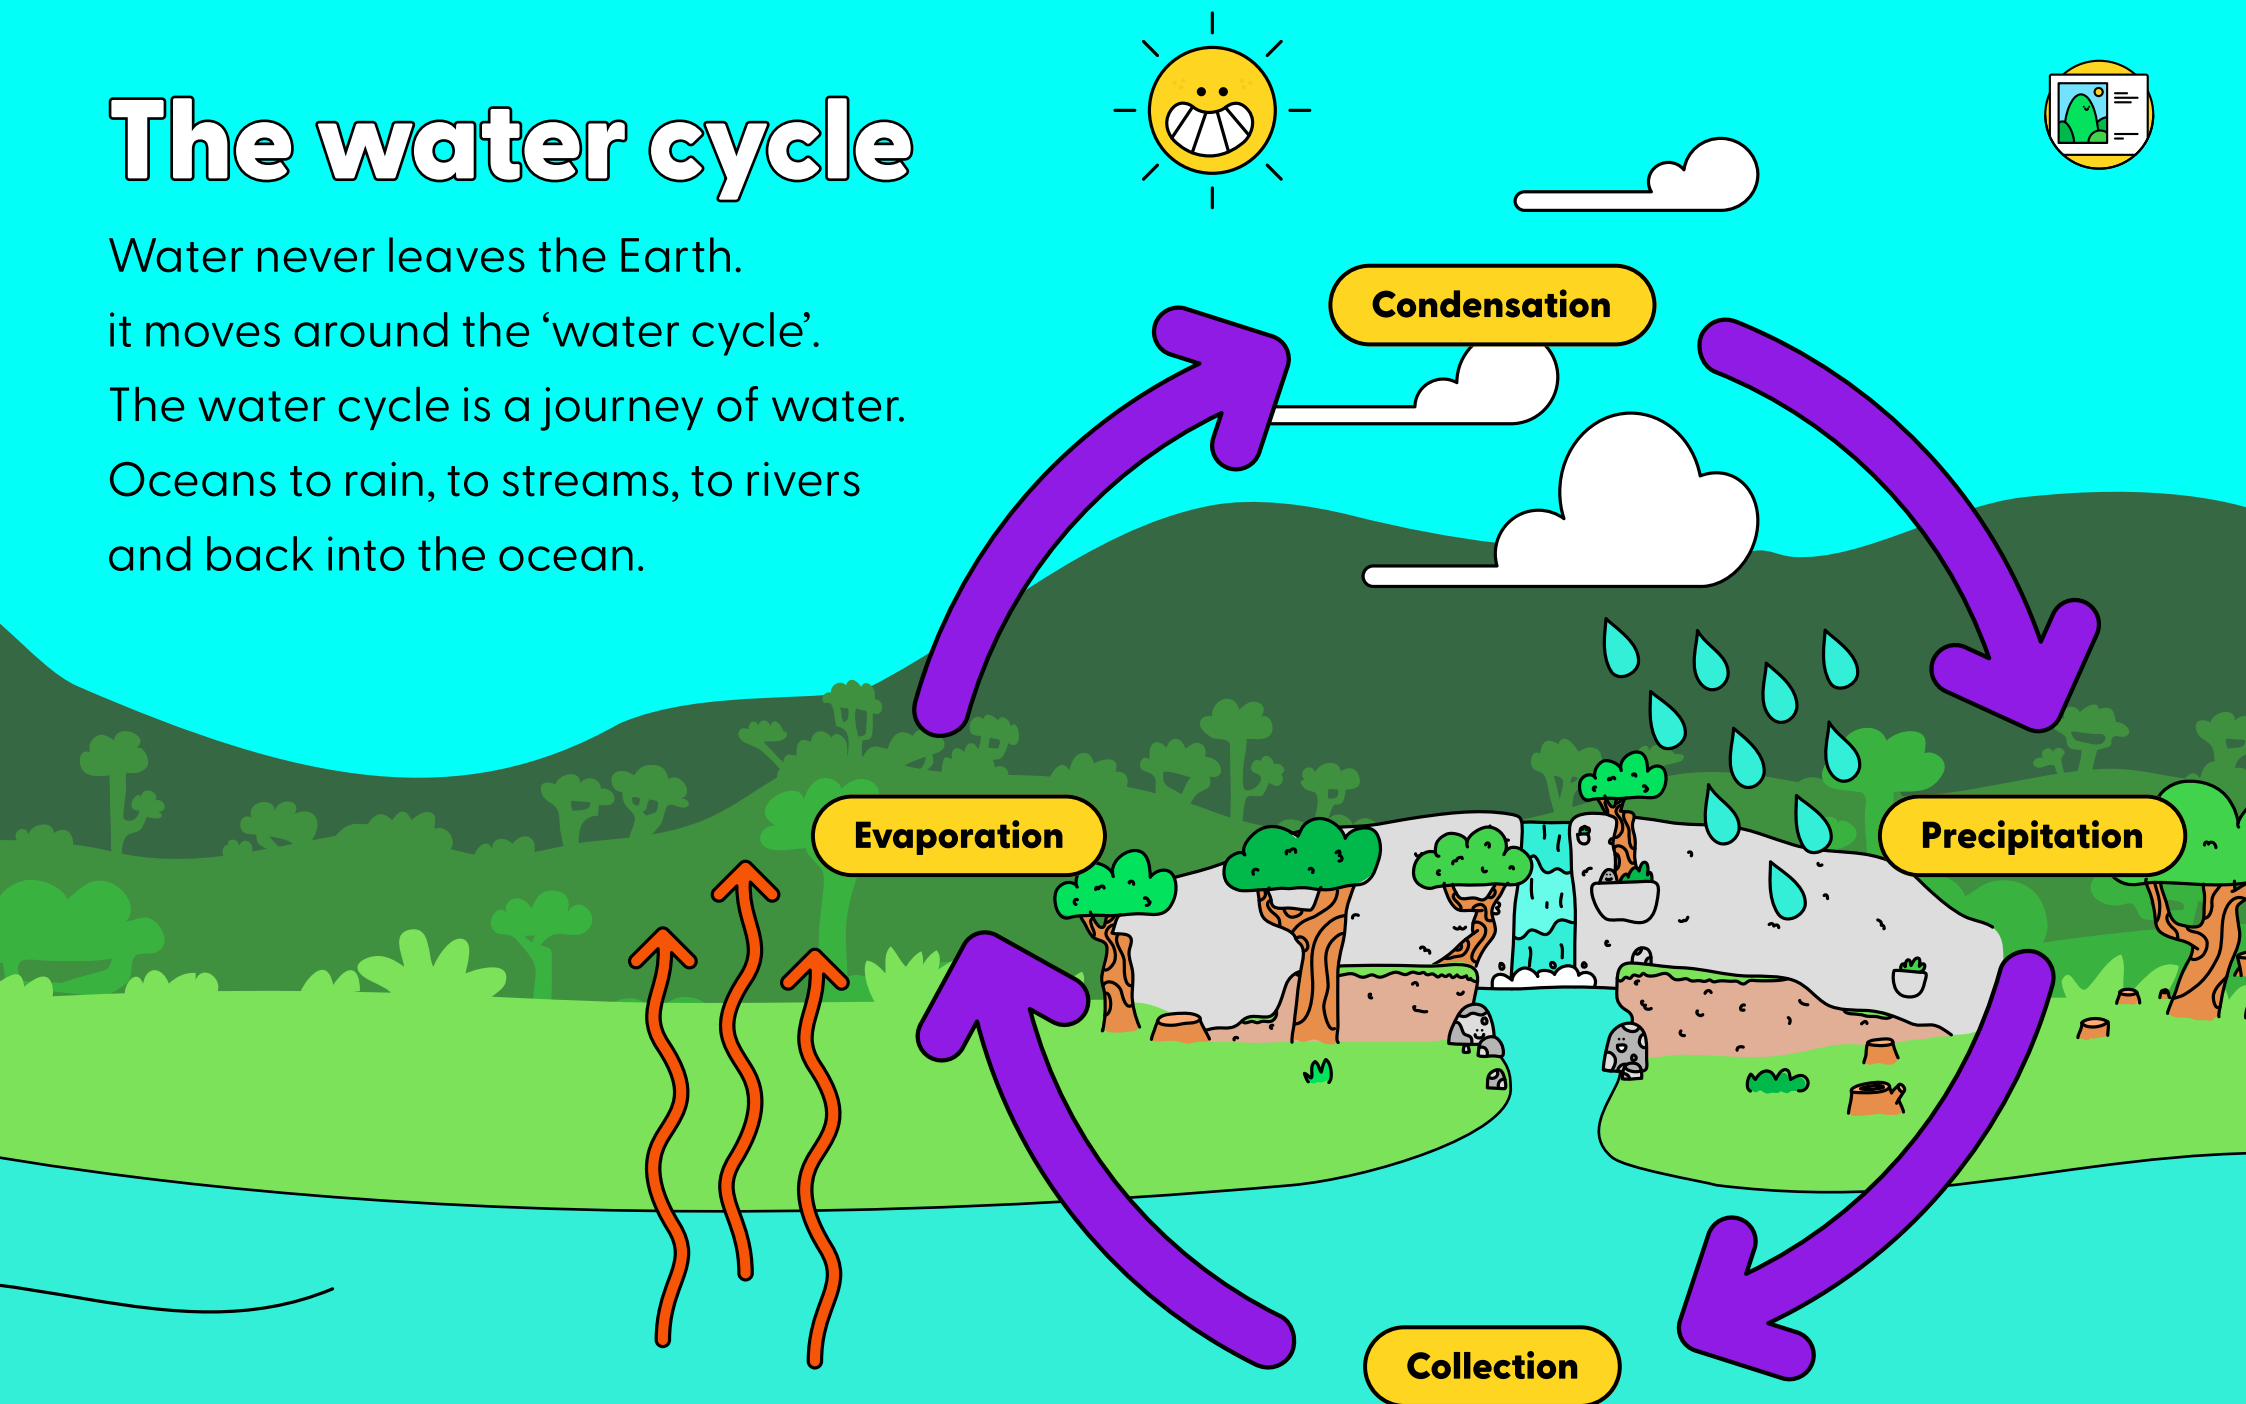

The water cycle

Water never leaves the Earth.

it moves around the 'water cycle'.

The water cycle is a journey of water.

Oceans to rain, to streams, to rivers
and back into the ocean.

One ocean!

The ocean is calming.

Imagine waves lapping on the beach.

It can help your mental health.

It keeps us happy, healthy and more connected!

There are so many FUN things to do in the ocean!

It's a special play for play and relaxation.

Swimming

Snorkelling

Sailing

Paddling

Can you draw yourself having fun in the ocean?

Amazing ocean facts!

The ocean is our **life support system**. Humans need it to survive!

The ocean gives us **oxygen**!
We need oxygen to breathe.
It gives us half the oxygen we need.

The ocean gives us **food**.
Many people rely on the
ocean for fish.
Fish gives humans protein.

The ocean EVEN helps the
world's **climate**.
It affects rainfall and
temperature.

1 million species

There are 1 million species of ocean creatures!

Beautiful
Angelfish

Strange
Mantis shrimp

**Crazy
looking**
Lionfish

HUGE
Napoleon Wrasse

Tiny
Fire dartfish

Toothy
Tiger shark

Colourful
Rectangular
triggerfish

Playful
Bottlenose dolphin

Plastic pollution

Plastic is EVERYWHERE!

Chairs

Clothes

Toys

Bike

Pens

Paint

Money

Many plastics like straws and drink bottles are made to be used JUST once!

These are called single use plastics and that's not good for the planet!

Most rubbish in oceans comes from land.

Plastic pollution then gets washed all around the world's oceans.

Plastic makes me MAD!!

The Global Goals

Global Goals are the world's to do list!

A list to protect animals, plants and people.

A list to protect the planet.

There are 17 things to do on the list.

Earth Cubs work with planet saving partners to work towards the goals!

**12 RESPONSIBLE
CONSUMPTION
AND PRODUCTION**

How much plastic is in your home?

**Can you find plastic pollution
in the Earth Cubs app?**

Be a planet saver!

It doesn't matter where you live on the planet,
Under the sea, in a city or the countryside.
Plastic pollution is everywhere!

One world, one ocean that is all connected.
What happens in one part of the ocean will
affect the other parts too!
Water is everywhere, it's life!

RETHINK using plastic - use a different material instead
If you have to use plastic, use recycled plastic

Use better plastic that is recycled.

Be a planet saver!

Buy a reusable shopping bag.

Make your lunch without using plastic packaging.

Use a reusable drinking cup.

Try a plastic free period
- see if you can do it!

Pick up litter!
Even if it isn't yours.

Use pencils instead
of biro pens.

Make a Recycled Jellyfish

Inside activity

- 1 Cut the bottom of the plastic bottle.**
- 2 Paint a colourful pattern on the bottle.**
This will be the body of the jellyfish.
- 3 Cut the plastic bag into long, thin strips.**
- 4 Collect the pink string, tie the end to the plastic bag and feed into the bottle.**

Paint two eyes and a mouth!

Make Polly PufferFish!

Get creative and mad about plastic!

Collect the items you need!

Use the blue paint to create the shape of the body, start in the centre of the body and move outwards.

Use a paint brush to create eyes and fins!

Inside activity

Whale Fun

Use chalk to create a HUGE blue whale.

You will need

Large space

Chalk

Outside activity

1

Look at whale pictures for inspiration!

2

Draw your whale! What other things can you add to your picture?
