

# How to download an eBook

*We have loads of eBooks available to download for free!  
You will need a library card to do this.*

Via the  
app

- 1** Go to your device's app store and download the Libro app.
- 2** Open the app and set up an Adobe ID for your device, following the app's instructions. You will also need to input your library card number, and select Staffordshire Libraries from the list of authorities. (NB Depending on your device, sometimes this step will come **after** you have browsed and found a book - see step 3.)
- 3** Click on Get Books and browse our large selection. When you find something you like, click the button to add it to your basket. You can alter the number of days you will have it, up to a maximum of 21 days. Repeat this step if you'd like to borrow more than one item.
- 4** When you've finished browsing, click Check Out and then Download to transfer each item onto your device.
- 5** The book(s) will then appear on your app's bookshelf, ready for you to read at your leisure.

*In future, you  
can skip steps  
1 and 2.*
