

How to download eAudio or eMagazines

We have loads of eAudiobooks available to download for free, and eMagazines that you can download for free and keep forever!

Via the app

You will need a library card to do this.

1 From the libraries website, follow the links to eMagazines and you will get to the RBDigital website.

2 Click on Create a new account and fill in the boxes, or log in if you already have one.

3 You can borrow eMagazines at this point. Just click on the symbol  and then select Start Reading.

4 If you want access to eAudiobooks as well, visit your device's app store and download the RBDigital app (may be called OneClickdigital).

5 Open the app, type in your new details from step 2, select United Kingdom from the list above the boxes, and select Staffordshire Libraries on the next screen.

6 In the home screen of the app, you can select and browse through a large selection of eAudiobooks and eMagazine titles.

7 When you find something you like, simply click to download it. When you're ready, click on Checked Out in the main menu and then Play or Read.
