

Digital changes in Children's services

In Autumn, the EHC Hub will change to the Children, Young People and Families Portal.

Just like the Hub, everyone involved in an Education, Health and Care Plan (EHCP) will be able to work together to support a child or young person. Information will still be kept up to date, safe, and secure.

When our new Portal is ready, we'll email existing Hub users some instructions and invite them to set up a log in. More information will be available soon on our SEND webpages.
